EXPERIENCE

Junior UI Developer

[InterWebb Technology, Zambia](#)

2022-09 - Current

Leveraging a strong foundation in graphic design principles, I specialize in crafting user-centric web applications for the remote and freelance market. I stay current with the latest UI/UX trends and best practices in software development to deliver visually appealing and functionally sound interfaces.

Key Duties, Activities and Responsibilities include;

- Designed elevated and brand-right creative to achieve marketing and merchant objective.
 - Developed wireframes, mockups and prototypes to facilitate efficient design iteration processes that led to better end products.
 - Used wireframes, mock-ups and prototypes to establish user interface design and architecture.
 - Proven ability to develop and implement creative solutions to complex problems.
 - Paid attention to detail while completing assignments.
-

Video Editor

[Zuha Africa Youth Organization, Mongu](#)

2020-03 - Current

Thrived as a video editor, managing the entire video production process. I planned and filmed captivating visuals, then skillfully edited the raw footage to create impactful videos that resonated with the organization's mission. My creativity extended beyond basic editing, as I incorporated special effects and transitions to elevate the storytelling and keep viewers engaged.

Key Duties, Activities and Responsibilities include;

- Develop storyboards and shot lists to plan filming and ensure efficient production.
 - Research and scout filming locations, considering lighting, sound, and logistics..
 - Operate video cameras and audio recording equipment with proficiency.
 - Troubleshoot technical problems that may arise during filming.
 - Edit raw footage to create a compelling narrative flow, using industry-standard editing software.
-

IT intern

[JB Consultancy, Lusaka](#)

2023-05 - 2023-08

Provided valuable experience in user-centric IT support. I tackled user issues with hardware, software, and networks, ensuring smooth operations. Collaborating effectively with the team, I identified and implemented software solutions that improved workflow and user experience. My understanding of UX principles helped me optimize support interactions, resulting in higher user satisfaction.

Key Duties, Activities and Responsibilities include;

- Provide clear and concise solutions to users, both in person and remotely.
 - Maintain and update knowledge base of frequently encountered issues and solutions.
 - Assist with software installation, configuration, and user training.
 - Develop and maintain clear communication channels with users to understand their needs and concerns.
 - Participate in team meetings to discuss IT support processes and identify areas for improvement.
-

Sale's Agent

[RDG Solar Homes, Mongu](#)

2020-03 - 2020-09

Thrived as a Solar Sales Agent, educating customers about the benefits of solar energy and crafting customized solutions. I assessed customer needs and roof suitability, then presented solar panel systems and financing options that maximized cost savings and environmental impact. My deep product knowledge allowed me to confidently answer questions and address concerns, leading to successful sales and

Key Duties, Activities and Responsibilities include;

- Identify potential customers within the target market through prospecting techniques (cold calls, referrals, events).
- Negotiate pricing and contracts, addressing customer concerns and objections to close sales effectively.
- Process necessary paperwork and facilitate permits for successful project completion.
- Contribute to marketing efforts by participating in events, trade shows, or community outreach programs.
- Monitor and track sales performance metrics (leads generated, sales closed, customer satisfaction) to identify areas for improvement.
